Tom Cruise vehicle Edge of Tomorrow bombed at the box office, so it's getting a new title 📰 (News)

August 15, 2014

Listing: Edge of Tomorrow

👁 0 visits

The Tom Cruise vehicle Edge of Tomorrow was one of the best movies of the summer, featuring one of its most audacious concepts and, in Emily Blunt's Rita, one of the year's best female characters (in a year that has not exactly been brimming with great female characters, particularly in mainstream Hollywood films). Naturally, it completely bombed at the box office.

Chapter 1

ListingResources Overview & Installation

The Listing Resources Add-on for JReviews allows submissions of 3rd party resources (affiliate links, news, articles, awards, ...) in the listing detail pages. It can handle any resource that you want to include that doesn't require a separate listing.

1.1 Features

- Define different resource types for specific listing types.
- Choose which user groups are allowed to submit/edit/delete resources.
- Track visits to resource links.
- Enable resource link cloaking.
- Create a menu item for displaying resources (newest, most visited, ...).
- Publish a resources module for displaying resources in module positions.

1.2 Usage Examples

Affiliate links on product listing detail pages

If you plan on generating income from affiliate links, the add-on provides a very simple way to do this and even allows you to cloak your affiliate links.

RESOURCES	
Buy Product	
Apple iPhone 5S 16GB 4G LTE Gold (Sprint) This product has been extensively tested, is certified to be 100% functional, and ready for activation with Sprint Wireless only. This is not a factory unlocked device for international GSM carriers.	1 visits
Apple iPhone 5S, Gold 16GB (Unlocked) Unlocked cell phones are compatible with GSM carriers like AT&T and T-Mobile as well as with GSM SIM cards (e.g. H20 and select prepaid carriers). Unlocked cell phones will not work with CDMA Carriers like Sprint, Verizon, Boost or Virgin.	2 visits
Buy Accessories	
Spigen Tough Armor Case for iPhone 5S - SF Smooth Black The new Spigen iPhone 5S case has arrived. The Tough Armor is the new leader in protective cases providing better impact absorption than any other bulky case in the market. The new Air Cushion Technology corners reduce the thickness of the case while providing optimal protection for your iPhone 5S.	2 visits
iPhone 5S Camera Lens Kit Turn your iPhone 5S into a camera with 12x optical manual zoom in under a minute! Just attach your iPhone 5S onto the universal holder and it's done! Slowly move the focusing holder left or right to adjust the lens position. The slim side and perfect finishing bring not only quality but safety to your iPhone. The case includes precise openings allowing full access to your iPhone function while keeping it away from minor scratches and scuffs.	1 visits
Anti-Spy Screen Protector Apple iPhone 5S High Quality Privacy Film in Portrait Or landscape Viewing Modes. Screen Is Only Visible To Persons Directly In Front Of Screen	1 visits

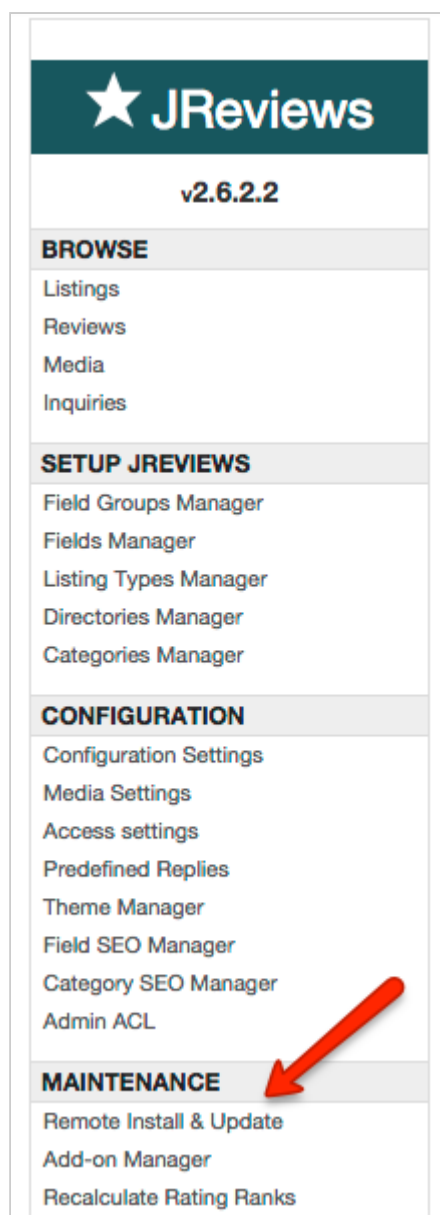

News and Critic Reviews for Movies, Games...

Easily complement the information in your existing listings with resources from other sites. Adding new resources is simple and they can be neatly organized by resource type.

Tom Cruise vehicle Edge of Tomorrow bombed at the box office, so it's getting a new title The Tom Cruise vehicle Edge of Tomorrow was one of the best movies of the summer, featuring one of its most audacious concepts and, in Emily Blunt's Rita, one of the year's best female characters (in a year that has not exactly been brimming with great female characters, particularly in mainstream Hollywood films). Naturally, it completely bombed at the box office.	August 15, 2014 0 visits
Critic Reviews	
Review by Paul Chambers (Movie Chambers) It's the writing and plotting in "Edge of Tomorrow" that sucks. Not the staging of scenes. Not the film's sense of humor. Not the film's quality action sequences.	June 27, 2014 2 visits
Review by Rene Rodriguez (Miami Herald) Why do invading extra-terrestrials always bring with them the single thing that can wipe them out? Couldn't they have hid it on Jupiter or something?	October 06, 2014 2 visits
Review by Christopher Orr (The Atlantic) The conceit may sound constricting, but Liman (like Harold Ramis before him) gets exceptional mileage out of it, presenting his ever-revolving tale with visual style, narrative velocity, and a wonderful dose of dark humor.	June 06, 2014 3 visits

1.3 ListingResources Installation

The add-on can be installed via the **Remote Install & Update** menu in the JReviews administration.

To install or update the addon you must have previously purchased it, your JReviews version needs to match or be greater than the one specified for the addon and you must have a valid "Upgrades & Support" package for your JReviews license.

If you purchased the addon, but it still says "addon not active for this license", go to the JReviews admin license screen, clear the local key text area and re-submit the license number. This will fetch a new local key that includes the addon information.

On the **Install & Update** page, check the **Updates** checkbox, and click on the **Install** button next to the ListingResources Add-on like on this image:

Install & Update

[➔ Add-on Manager](#)

UPDATES
☒ I understand that the updates process will overwrite all previous files for the component or add-on and I should have BACKUPS in case I've made any changes.

USE BETAS:
☐ I understand betas are not meant to be used for production sites, but I want to be alerted of new betas and have the ability to upgrade.

Components

Name	Description	Version	Actions
S2 Framework		2.1.0.4	Already Installed
JReviews	Get the latest and greatest version of JReviews.	2.6.2.2	Already Installed

Add-ons

Name	Description	Version	Required JReviews version	Type	Actions
CORE ADD-ONS					
WidgetFactory HOT	Allows you to create widgets with listing and review information that publishers can place on their websites and drive traffic to your site.	1.1.1.2	2.5.0.1	Commercial	Remove
ListingResources NEW	The Listing Resources Add-on for JReviews allows submissions of 3rd party resources (affiliate links, news, articles, awards, ...) in the listing detail pages. It can handle any resource that you want to include that doesn't require a separate listing.	1.0.1.1	2.5.2.4	Commercial	Install
Quick2Cart NEW	Transform JReviews into an e-commerce powerhouse with Quick2Cart. The add-on adds an integration layer with Quick2Cart, developed by Techjoomla, so your listings are transformed into product pages for sale of physical and digital goods.	1.0.0.6	2.5.2.4	Commercial	Remove

Reload the page to see the ListingResources Add-on link appear under the Add-ons header on the left sidebar:

Rebuild Media Counts

Clear Cache & File Registry

Chapter 2

Defining Resource Types

The first step is to define the types of resources in the **Resource Types** add-on menu:

The screenshot shows the JReviews v2.6.2.2 interface. On the left is a sidebar menu with the following sections:

- LISTING RESOURCES ADD-ON**
 - Configuration
 - Browse Resources
 - Resource Types (highlighted with a red arrow)
- MAINTENANCE**
 - Remote Install & Update
 - Add-on Manager
 - Recalculate Rating Ranks
 - Rebuild Reviews & Ratings
 - Rebuild User Ranks
 - Rebuild Media Counts
 - Clear Cache & File Registry

The main content area is titled "Resource Types" and contains a table with the following data:

#	ID	State	Title	Listing Types	Description
1	1	✓	Buy Product	Products	
2	2	✓	Buy Accessories	Products	
3	3	✓	Buy Movie	Movies	
4	4	✓	News	Games, Movies	
5	5	✓	Critic Reviews	Games, Movies	
6	6	✗	Awards	Hotels, Restaurants	

6 results - showing 1 - 6

When you assign a specific resource type to listing types, the "Add New Resource" button will appear in all listings that use the selected listing types and you can begin adding resources on the listing detail pages.

Chapter 3

Adding Resources

Users that are allowed to submit resources will see the **Add New Resource** button on the listing detail pages:

Chapter 4

Configuration

The add-on comes with many configuration options where you can choose how the resources are displayed, which form fields are required and which user groups are allowed to submit resources.

The screenshot shows a web interface titled "Configuration". Below the title is a large, empty rectangular box. Underneath this box is a section header "General Settings". Below "General Settings" are two rows of settings, each with a label and two radio buttons. The first row is "Add rel='nofollow' attribute to resource links" with "No" and "Yes" options; the "Yes" option is selected. The second row is "Cloak Resource links" with "No" and "Yes" options; the "No" option is selected.

Configuration	
General Settings	
Add rel="nofollow" attribute to resource links	<input type="radio"/> No <input checked="" type="radio"/> Yes
Cloak Resource links	<input checked="" type="radio"/> No <input type="radio"/> Yes

Add rel="nofollow" attribute to resource links - Enable if you don't want googlebot to follow resource links.

Cloak Resource links - If enabled, the links to resources will have example.com/resource?r=JGX4S format and redirect to the original URLs. Create a Link Cloaking Placeholder menu item to set the menu alias for cloaked URLs (more info in the Menus chapter).

Listing Detail Page Display Settings	
Display Position	<div>Below Social Bookmarks</div>
Resources Ordering	<div>Newest</div>
Resources Display Mode	<input type="radio"/> All resources together <input checked="" type="radio"/> Separate resources by type
Display Resource Type	<input type="radio"/> No <input checked="" type="radio"/> Yes
Display 'Submitted by'	<input checked="" type="radio"/> No <input type="radio"/> Yes
Display Submission Date	<input checked="" type="radio"/> No <input type="radio"/> Yes
Display Resource Description	<input type="radio"/> No <input checked="" type="radio"/> Yes
Display Resource Date	<input type="radio"/> No <input checked="" type="radio"/> Yes
Display Resource Visits	<input type="radio"/> No <input checked="" type="radio"/> Yes
Add Resources button to listing header	<input type="radio"/> No <input checked="" type="radio"/> Yes

Display Position - Select a position where the resources will be displayed on the listing detail page.

Resources Ordering - Choose how resources will be sorted.

Resources Display Mode - If you choose *Separate resources by type*, resources will be grouped by resource types.

Display Resource Type - This setting is used on both listing detail page and resource list pages.

Display 'Submitted by' - This setting is used on both listing detail page and resource list pages.

Display Submission Date - This setting is used on both listing detail page and resource list pages.

Display Resource Description - This setting is used on both listing detail page and resource list pages.

Display Resource Date - This setting is used on both listing detail page and resource list pages.

Display Resource Visits - This setting is used on both listing detail page and resource list pages.

Add Resources button to listing header - If enabled, "Resources" button will appear in the listing header next to "Add Media" and other listing buttons.

Resource List Page Display Settings	
Display Listing Title	<input type="radio"/> No <input checked="" type="radio"/> Yes
Display Listing Thumbnail	<input type="radio"/> No <input checked="" type="radio"/> Yes
Thumbnail Mode	<input type="radio"/> Scale <input checked="" type="radio"/> Crop
Thumbnail Size	<input type="text" value="100x100"/> WIDTHxHEIGHT in pixels

Display Listing Title - Enable if you want to show the listing title in resource details on resource list pages.

Display Listing Thumbnail - Displays listing main media next to the resource details.

Thumbnail Mode - Choose Scale or Crop mode for thumbnails,

Thumbnail Size - Enter thumbnail dimensions in WIDTHxHEIGHT format,

Resource Form	
Resource Link	<input type="text" value="Required"/>
Description	<input type="text" value="Optional"/>
Allow HTML in Description	<input checked="" type="radio"/> No <input type="radio"/> Yes
Resource Type	<input type="text" value="Required"/>
Date	<input type="text" value="Optional"/>
Expiration Date	<input type="text" value="Optional"/>

Resource Link - Resource link can be made optional or hidden if you want to allow resource submissions as listing "notes" without links.

Description - Description of the resource.

Allow HTML in Description - If enabled, simple html tags can be used in the description text (including the img tag).

Resource Type - Resource type select list can be made optional or hidden.

Date - This field can be used if the resources have their own publish date (i.e. books, articles, ...).

Expiration Date - The resource will no longer be displayed on the site after the selected expiration date.

Access Settings	
Submit New Resource	7 selected
Registered Group	<input checked="" type="radio"/> Listing Owner <input type="radio"/> All
Moderate (Hold for approval)	Select options
Edit Resource	7 selected
Delete Resource	Administrator, Super Users

Submit New Resource - Choose which user groups will be allowed to submit resources.

Registered Group - Select *All* if you want registered users to be able to submit resources to any listing, otherwise they'll be able to submit resources only to their own listings.

Moderate (Hold for approval) - Resource submissions of selected user groups will be submitted unpublished.

Edit Resource - Select all groups allowed to edit resources. Registered and Author groups are allowed to edit only their own resources.

Delete Resource - Select all groups allowed to delete resources. Registered and Author groups are allowed to delete only their own resources.

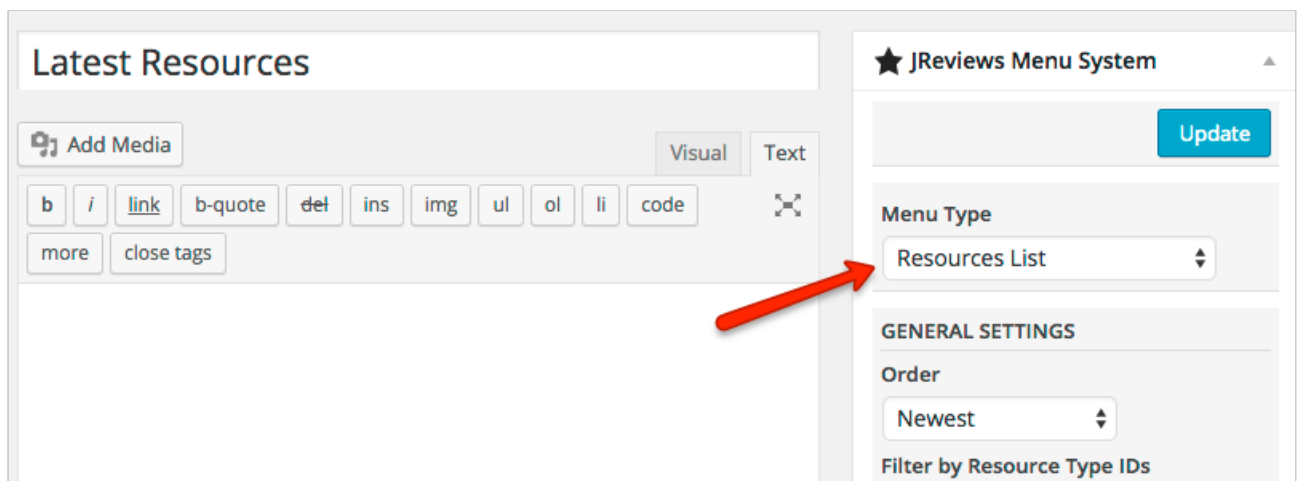

Chapter 5

Listing Resources Menu Pages

The Listing Resources add-on provides these menu item types:

- **Resources List** - For displaying a list of resources (i.e. newest resources, most visited resources, etc.).
- **My Resources** - For logged in users to see the list of resources they submitted.
- **Link Cloaking Placeholder** - The alias if this menu item will be used in cloaked resource URLs. For example, if you use "visit" as the menu alias, the resource URLs will look like this: example.com/visit?r=JGX4S.

To create those menu items, click on **Pages** in WP dashboard and click **Add New**. In the parameters select one of the Menu Types that you want to create:

Below the Menu Type setting you will find additional parameters:

The screenshot displays the settings interface for the ListingResources Add-on, organized into two main sections: GENERAL SETTINGS and PAGE & SEO SETTINGS.

GENERAL SETTINGS

- Order:** A dropdown menu currently set to "Newest".
- Filter by Resource Type IDs:** An empty text input field.
- Theme suffix:** An empty text input field.

PAGE & SEO SETTINGS

- Page Title:** An empty text input field.
- Page Heading:** An empty text input field.
- Show Page Heading:** Radio buttons for "No" and "Yes", with "Yes" selected.
- Page total:** An empty text input field.
- Limit per page:** An empty text input field.

Order - Choose how the resources will be sorted.

Filter by Resource Type IDs - If you want the menu item to show resources from a single resource type, enter the ID number of that resource type. The ID number can be checked in the Resource Types page in add-on administration.

Theme suffix - Allows you to create a custom suffixed resources theme file that will be used for the menu item.

Page Title - Used in the title tag.

Page Heading - Displayed on top of the page.

Show Page Heading

Page total - Total number of resources to be shown.

Limit per page - Number of resources per page.

After creating the WP Page for listing resources, go to the Appearance -> Menus in WP Dashboard and add the newly created WP Page to one of your menus.

Example of the resources menu:

Chapter 6

Listing Resources Widget

The Listing Resources Widget allows you to display resources in any of the widget positions of your site.

To publish the widget, go to **Appearance -> Widgets** in WP Dashboard, find **(ListingResources) Resources** widget and drag it to one of the widget positions.

The widget comes with many parameters:

The screenshot shows the 'Main Setup' configuration panel for the Listing Resources Widget. It includes the following settings:

- Title:** A text input field containing 'New Deals'.
- Show Title:** Radio buttons for 'No' and 'Yes', with 'Yes' selected.
- Order:** A dropdown menu set to 'Newest'.
- Display Listing Title:** Radio buttons for 'No' and 'Yes', with 'Yes' selected.
- Display 'Submitted by':** Radio buttons for 'No' and 'Yes', with 'No' selected.
- Display Submission Date:** Radio buttons for 'No' and 'Yes', with 'No' selected.
- Display Resource Type:** Radio buttons for 'No' and 'Yes', with 'No' selected.
- Display Resource Date:** Radio buttons for 'No' and 'Yes', with 'No' selected.
- Display Resource Visits:** Radio buttons for 'No' and 'Yes', with 'Yes' selected.
- Display Resource Description:** Radio buttons for 'No' and 'Yes', with 'Yes' selected.
- Trim Description (# words):** A text input field containing '40'.
- Theme suffix:** An empty text input field.

Order - Choose how the resources will be sorted.

Display Listing Title - Enable if you want to show the listing title in resources.

Display 'Submitted by' - Shows which user submitted the resource.

Display Submission Date - When was the resource submitted.

Display Resource Type - Displays resource type label.

Display Resource Date - Displays the resource date.

Display Resource Visits - The number of clicks on the resource link.

Display Resource Description

Trim Description (# words) - Choose the number of description words that will be shown.

Theme suffix - Allows you to create a custom suffixed resources module theme file.

Thumbnail Settings

Show numbers ☒ No ☐ Yes

Positioning of Pagination - Choose the position of slider arrows when the module has multiple slider pages.

Page Transition - Choose the transition type for the slider pagination (Horizontal sliding | Vertical sliding | Fade effect).

Enable Slideshow - If enabled, the module will automatically advance slider pages.

Slideshow Interval (sec.) - Time between pages in seconds.

Max. number of results - Total number of results that will be displayed.

Results per page - How many results will be displayed per slider page. If you enter the same number as for *Max. number of results*, then the module slider will be disabled and all results will be displayed at once.

Columns - Choose how many results per row to show.

Show numbers - Adds numbers before each result.

Chapter 7

Theme Customizations

The ListingResources add-on theme files are located in this folder:

- `/wp-content/plugins/jreviews_addons/listingresources/views/themes/listingresources/`

These theme files should not be customized in the default location, instead copy them to your custom JReviews theme in `jreviews_overrides`.

7.1 Overriding add-on theme files

For example, the `/themes/listingresources/resources/resource_layout.html` theme file that is used on listing detail pages can be copied to your custom JReviews theme like this:

- `/jreviews_overrides/views/themes/your_theme/resources/resource_layout.html`

The theme file of the resources module `/themes/listingresources/modules/listingresources.html` would go to:

- `/jreviews_overrides/views/themes/your_theme/modules/listingresources.html`

7.2 Overriding add-on css styles

CSS styles of the add-on are located in `/themes/listingresources/theme_css/listingresources.css` file, but this file should not be copied to your custom JReviews theme. Instead, only copy individual css styles that you want to customize from this file into the `custom_styles.css` file in your JReviews theme:

- `/jreviews_overrides/views/themes/your_theme/theme_css/custom_styles.css`

7.3 Overriding add-on language strings

The add-on language file is located here:

- `/wp-content/plugins/jreviews_addons/listingresources/locale/eng/LC_MESSAGES/default.po`

If you want to customize specific language strings, copy those individual strings into your main JReviews language override file:

- `/jreviews_overrides/locale/eng/LC_MESSAGES/default.po`
